

SULEIMANOV EMIR

Java Developer

E-mail:	emir-23.03@mail.ru
Telegram:	https://t.me/cokln
Phone:	+7 987 416 27 58 • Telegram WhatsApp
Github:	https://github.com/EMIR1HUB
Portfolio:	https://emir1hub.github.io/
Date of birthday:	23.01.2003
Residence:	Kazan
Citizenship:	Kazakhstan
4th year student of "KSPEU" university	

Core Skills

- English - B1
- Java - Spring Framework, Spring Boot, Hibernate, RabbitMQ, Kafka, Maven, JUnit, RESTful API, Git
- Database: PostgreSQL, MySQL
- Frontend: HTML5, CSS3 (SASS, SCSS), Flexbox, JS, Bootstrap, WordPress, Thymeleaf
- IntelliJ IDEA, Visual Studio, Visual Studio Code

Projects

Web Library - The Digital Library

Description: Web application for managing the main functions of the library and controlling its stages of work (work with stock items, customer management, etc.)

The project repository: https://github.com/EMIR1HUB/Library_WebProject

The technology stack: Java, Spring (MVC, Boot), Spring Validator, JdbcTemplate, DAO, PostgreSQL, Thymeleaf, HTML, BootStrap

"Development of an algorithm to detect fraudulent banking transactions" for IATE MEPhI and Sber

Description: development based on the Opportunity Cup 2022 case championship

The project repository: <https://github.com/CreativeWex/Opportunity-Cup-2022>

- parsing json transactions;
- input-output of PostgreSQL data;
- developed an algorithm for detecting fraudulent bank transactions;

The technology stack: Java, Git, JDBC, PostgreSQL, Maven

"Java Piscine School 21"

Description: An intensive aimed at learning Java effectively

The project repository: <https://github.com/EMIR1HUB/Java-Piscine-42>

The technology stack:

- Technology:** OOP, File IO, Threads, Maven, JAR, JDBC, PostgreSQL, JUnit, Reflection API, Hibernate, Spring, JCommander, JCDP
- Паттерны:** Singleton, Facade, Prototype, Producer-Consumer

More info

At the moment, my special interest is to grow as an expert and work with new technologies and stacks.

I'm not afraid to take on completely new tasks and dive into them headfirst. I can quickly understand completely unknown issues from scratch.

I have an analytical mind and a constant desire for development. In 2023 I flew to the USA to exchange experience and improve my English.

Experience - more than 1 year

"Y_LAB" (06.01.2023-30.05.2023)

Position: Backend Java Developer

- by introducing external merge sorting, improved the performance of the PostgreSQL data workflow service;
- developed asynchronous micro-services for message censorship (profanity) using RabbitMQ;
- CRUD, REST API functionality SPRING Boot, Hibernate JPA;
- code refactoring and optimization;

Stack: Java, Spring Framework, PostgreSQL, Redis, Hibernate, Git, RabbitMQ, Maven, JUnit

"Crystal-Digital" (29.01.2022 - 30.04.2022)

Position: Web-master

- implemented an RFP system;
- created many websites, landing pages for customer organizations;
- implemented SEO, which increased the visibility of the site in search engines;

Stack: WordPress, Woocommerce, PHP, HTML5, SASS, JS, MySQL

Education

2020-2024 «KSPEU»

«Informatics and Computer Science»

Within the framework of industrial practice in the company "INCOR" Ltd. the software for automation of the process of distribution of training load was developed

Professional development, courses

2023	Y_LAB UNIVERSITY Completion of the course "Java Intensive"
2022	NRU "MPEI" "My first startup" supplementary educational program
2022	Crystal Marketing Agency WordPress, Web-master
2022	FEEU Stepik, SQL Trainer
2022	ITC Digital Stepik, HTML, CSS
2021	Yandex Academy Stepik, C++
